

# E-learning solutions provider choose dedicated MS Exchange Server for email

## Background

Edvantage group is a Managed Learning Service Company providing single-source solution for corporate e-learning solutions. The company combines industry expertise, learning systems and software, content and customised services to help client develop employee skills and improve performance. Edvantage group serves local, multinational and global organisations including Aker, Lego, Virgin Atlantic Airways and Network Rail from offices throughout the Nordic countries, Benelux and the UK.

## Why choose MS Exchange hosted email?

Edvantage group currently have 150 email addresses hosted with SMS on a dedicated MS Exchange server. The aim for Edvantage group was to find an email solution that allows employees to access their emails from wherever they are without additional synchronisation. MS Exchange fulfils that requirement and users can access their emails from mobile devices, desk tops, laptops and even in a client's office via the advanced web access which made the Exchange server a perfect choice for Edvantage group. In addition to that MS Exchange integrates with MS Office and to top it all off the system is simple, functional and easy to use and administer.

## Why SMS?

According to Svein Kvinnsland: "SMS offered a hosted solution with all the services we needed. We were impressed with the ease of use of the system and the stability of the service they offer. The price was also an aspect that convinced us to go with SMS and their track record was encouraging".

## SMS in three words

Good  
Fast  
Reliable service

## Summary

By outsourcing their email and using a dedicated server companies like Edvantage group can keep the flexibility of having their own server without the hassle of the maintenance—back ups, software updates, and server management.
