

product guide

SMS NexGen Email

This is our entry level but surprisingly well featured POP3 service. Use you own domain to personalise your email address and to make your email independent of your ISP. Includes lots of superior features compared with normal ISP email.

From £1.00 per month!

Microsoft Exchange

The established standard for enhanced email hosting adding lots of collaborative features and support for mobile access with Windows Mobile 6 and iPhone including syncing and push email. The safe choice for Windows users. Dedicated servers for larger users with enhanced security. Full BlackBerry support available (BES).

From £5.99 per mailbox per month. Dedicated servers £299.00 per month

Zimbra Collaboration Suite

The up and coming choice for hosting email. Extra features include a superior interface for web access to your mail and excellent support for Apple and UNIX clients as well as MS Outlook. Dedicated servers for larger users with enhanced security.

From £3.99 per mailbox per month. Dedicated servers £199.00 per month
