Any Place, Any Machine

- Rich, zero footprint, AJAX-based end-user interface (cross browser/OS)
- Security sans VPN
- Secure, read-only access to attachments without special-purpose client software

Modern collaboration styles/formats

- RSS/ATOM feeds
- Tags

Email Archiving

You can now add the archiving service to Zimbra CS mailboxes. You can profit from a secure storage solution that goes beyond the usual back-up as it secures email traffic separate from the users' own mail boxes. See our website for more details.

SMS Common Features

All our email packages include:

- User management via our unique Control Panel
- Anti-spam and anti-virus filters
- Access via web browser
- Market leading storage per mailbox
- Same domain can be used regardless of service
- Instant setup

SMS Advanced Service Features

Infrastructure second to none:

- High Quality storage with NetApps—instant recovery from disk failure
- Virtualisation of servers—server downtime eliminated
- Dual data centres with fibre optic connection and multiple connections to the Internet

Dedicated servers are available for larger users—servers set up to your individual requirements and highly reliable as part of our Virtualisation Technology.
